- + Asset recovery
- + Decommissioning & decontamination
- + Asbestos & hazardous waste removal
- + Soft strip Outs & internal demolition
- + Demolition plans & programmes
- + Industrial dismantling
- + Demolition (various methods)
- + Waste management & recycling including aggregate screening
- + Contaminated land remediation
- + Handover report

## Fit Outs

From concept through to delivery, providing high level expertise is made easy as we work in unison and partnership with an award winning design and 'multi-level' fit out team.

With 20+ years of experience and understanding of the real estate sector, as a combined force, we treat your vision as if it was our own with our collaborative and service centric approach. Our Project/Directing team will ensure that the following key stages remain on point

[Return to Core Services](#) 

## Working together through the key stages

### ● **Objectives, planning and understanding**

### ● **Design**

If and where required, we can produce concept drawings and 3D visualisation of your fit out requirements.

### ● **Material, equipment, furniture and finishes**

To unlock the full potential of the space (s), we can offer cost efficiency through space planning ensuring you are given the best possible advice and recommendations to suit the environment.

### ● **Construction & delivery**

Through the process of methodical planning, our project/directing team will oversee and manage each stage in accordance with the construction phase plan providing regular progress updates

### ● **Quality control**

Speaks for itself!
